

Style Guide

Talk to Me by TADAA
V1.0.0 11/18/2020

Backend - PEP8

Code Layout

Indentation: 4 spaces.

Line length: Maximum of 79 characters.

Docstrings: Maximum of 72 characters.

Use encapsulating parenthesis for expressions over multiple lines.

Use backslash otherwise.

Imports: Individual packages on separate lines (E.g. `import os` \n `import sys`).

Blank lines:

Top-level functions/classes - two blank lines on either side.

Methods - one blank line on either side.

String Quotes

String quotes: Double quotes.

Comments

Block comments: Allowed.

Inline comments: Use sparingly.

Docstrings: Required.

Must have function, parameter, and return value description.

Naming Convention

Function and variable names: `snake_case`.
