

Sprint 2 Plan

Talk to Me by TADAA

V1.1.0 10/28/2020

Sprint Goals

Allow for a user to select how they want to use the website by choosing “Vent”, “Listen” or “Talk”. Let users know the purpose of the website. Allow users to show their appreciation for messages by “liking” them.

Development Tasks

- **Total estimated work hours: 56 hours**
- As a user, I want to be able to match with someone who can hear me vent, so I can vent. **Total: 12 hours**
 - Add different queues to the matchmaking algorithm. **1 hours**
 - Match users correctly based on their queue. **5 hours**
 - Match users in the talk queue with vent/listen if there are not enough users to matchmake optimally. **5 hours**
 - Give the user the option to select between different queues. **1 hours**
- As a site admin, I want to show a popup detailing the purpose of the site, so I don't get people trolling. **Total: 10 hours**
 - Design the popup. **3 hours**
 - Show the popup. **5 hours**
 - Only show the popup if the user has not already seen it. **2 hours**
- As a user, I want to be able to like messages, so I can show people I like what they're saying. **Total: 9 hours**
 - Give users the option to click on the message to like it. **3 hours**
 - Display liked message. **2 hours**
 - Send the server a kiss to let it know that the message was liked. **2 hours**
 - Broadcast the kiss to the connected clients in the room. **2 hours**
- Miscellaneous Tasks **Total: 25 hours**
 - Remove ghosts from the queue. **5 hours**
 - DevOps:
 - CI for frontend deployment on server **8 hours**
 - CI for backend testing **2 hours**
 - Documentation **10 hours**
