

Release Plan

Talk to Me by TADAA

V1.0.0

High Level Goals

- Putting users into an anonymous, private chat room where they can chat.
- Have a pleasant UI for both site admins and users.
- Moderate the site (shadowban users with multiple reports).

User Stories

Sprint 1

- As a user, I want to be able to be given a private chat room, so I could talk without anyone else seeing (establish connection).
Effort: **8 SP** Priority: **Must**
- As a user, I want to be able to send and receive messages, so I can talk away my loneliness (talk to each other).
Effort: **5 SP** Priority: **Must**

Sprint 2

- As a user, I want to be able to match with someone who can hear me vent, so I can vent.
Effort: **8 SP** Priority: **Should**
- As a user, I want to be able to like messages, so I can show people I like what they're saying (design: how to assign IDs to msgs?).
Effort: **3 SP** Priority: **Could**
- As a site admin, I want to show a popup detailing the purpose of the site, so I don't get people trolling.
Effort: **2 SP** Priority: **Should**

Sprint 3

- As a user, I want to be able to report people that send offensive messages, so I don't chat with them again (fundamental design choice: store messages?).
Effort: **13 SP** Priority: **Should**
- As a site admin, I want to be able to view reported messages, so I can view reports.
Effort: **1 SP** Priority: **Should**
- As a site admin, I want to be able to block IPs/users from chatting, so I can prevent trolls.

Effort: **3 SP**

Priority: **Should**

Sprint 4

- As a site admin, I want to see the reports in a nicely formatted way, so that it is easy to read over the reports (authenticate admins, separate admin page).

Effort: **8 SP**

Priority: **Could**

- As a user, I want to be able to chat in the same language as the other user, so we can understand each other.

Effort: **5 SP**

Priority: **Could**

Product Backlog

No user stories were left in the product backlog, we believe that all features that we wish to include will be done in four sprints.
