Sprint 4 Report
Talk to Me by TADAA
V1.1.0 12/07/2020

Sprint Goals
Create a better environment for admin work and allow users to select a language to chat in so they can enjoy their experience more.

Start/Stop/Continue
Start:
- Last sprint!

Stop:
- Last sprint!

Continue:
- Coding.
- Documentation.
- Updating scrum board/chart.
- Good Git practices (branches, PRs, etc.).
- Passing CI checks (linting, tests).

Tasks Completed
- As a site admin, I want to see the reports in a nicely formatted way, so that it is easy to read over the reports (auth admins, admin page). - **COMPLETE**
  - Create basic authentication for admin (JWT) - **COMPLETE**
    - store token in browser - **COMPLETE**
    - send token with all api requests - **COMPLETE**
  - Create basic UI for the admin page - **COMPLETE**
    - Login page (send pass to server, stores locally) - **COMPLETE**
    - View reports page - **COMPLETE**
      - Ban user button - **COMPLETE**
      - View reported messages button - **COMPLETE**
      - Clean db (useful) - **DID NOT DO**
    - View reported messages page - **COMPLETE**
    - View bans page - **COMPLETE**
      - Unban user button - **COMPLETE**
  - Create API routes for these pages - **COMPLETE**
    - Auth password - **COMPLETE**
    - Get reports - **COMPLETE**
    - Get reported messages from report - **COMPLETE**
    - Ban user from report - **COMPLETE**

- ■ Get banned users - **COMPLETE**
        - ■ Unban user - **COMPLETE**
  - ● As a user, I want to be able to chat in the same language as the other user, so we can understand each other. - **DID NOT DO**

Work Completion Rate
User Stories Completed: 1

Estimated Ideal Work Hours Completed: 29

Number of Days: 14

Sprint Demo/Retrospective
Demo
- https://talk-to-me.co

Retrospective
Start/Stop/Continue written above.
General thoughts:
- Good sprint
    - Completed what was necessary, and beyond
    - Completed work is exemplary

Overall Evaluation
- Great final product. Does everything we want it to do and has no notable client-side issues.
- We didn't end up doing the different languages user story as we wanted to focus on documentation and the admin portal. We believe that the language support is unnecessary for the final product at this stage.
